**GTalk2VoIP Services**

GTalk2VoIP gateway provides the following premium and free services to Talkonaut, Google Talk, MSNLive Messenger and Yahoo! Messenger users:

**Premium services**

- **User-defined SIP Calling** allows you to define one or more your existing SIP account and route your calls through them. You may also register on SIP Proxy and receive inbound calls from SIP to your messenger. Subscription fee is **\$5** per month.
- **Skype Outgoing Calling** allows you to make unlimited calls to SKYPE contacts through **OpenSky service** (no inbound calls at the moment). Subscription fee is **\$5** per month.
- **Voice Conferencing** allows you to setup voice and text chats to unlimited number of other messenger users. Subscription fee is **\$5** per month.
- **Phone numbers (DIDs)** allows you to obtain a phone number in more than 40 countries world-wide and receive all your calls right onto your messenger while you travel, no matter where you are located. Subscription fee depends on country code and vendor starting from **\$2** per month.
- **Phone numbers + Forwarding** service allows you to get a phone number in your area and set up forwarding to any other phone number world wide. As such call will be charged using cheap VoIP providers (per minute).
